

CLINICAL CHEMISTRY AND MICROBIOLOGY ANALYSIS LABORATORY
(results available for collection every day after 17.00 except Saturday)

Equipped with the latest technology and **staffed only by graduates**, it is capable of addressing every type of request while guaranteeing maximum safety both in the analytical phase and in the phase of the result. Highly automatised processes and specialised staff ensure swift delivery of results and make it possible to handle **emergencies**.

Qualifying points are:

- **Internal and external quality control** (regional quality control audits in collaboration with the University of Pesaro-Urbino);
- **Triple check of validity of each result** obtained by the graduate staff;
- **Computerisation of the analytical process** with full guarantee of safety in the identification of the samples;
- Swift execution of examinations;
- Direct communication with family doctors;
- **Duration of admission hours**;

The following examinations are carried out:

- General and specialist CLINICAL CHEMISTRY examinations: **same-day delivery of results**
- HAEMATOLOGY: **same-day delivery of results**
- IMMUNOLOGY: **same-day delivery of results**
- ENDOCRINOLOGY: **same-day delivery of results**
- MICROBIOLOGY
- TOXICOLOGY
- DIAGNOSTIC CYTOLOGY: **results delivered within the week**
- DIAGNOSTIC HYSTOPATHOLOGY
