

**DIAGNOSTIC IMAGING SERVICE  
INTERVENTION RADIOLOGY**

**Director: Dr Peter Davidovits**

The service has built up a vast amount of experience in various sectors of interventional medicine using CT scanning:

- Bone biopsies
- Pulmonary biopsies
- Percutaneous ablation with laser (FTI) or radio frequencies on [osteoid osteoma](#) ([views of some patients](#))
- Percutaneous thermoablation by means of radio frequencies for hepatocarcinomas and hepatic metastases
- Vertebroplasty
